

**Open letter to President Museveni, President of the Republic of Uganda and  
General Joseph Kony, Leader of the Lord's Resistance Army (LRA).**

10 March 2009

Dear Excellency, President Museveni and General Kony

We, the women from the Greater North of Uganda, national and international women's organizations welcome your efforts for peace, in particular your engagement in the most recent peace process.

As you know the people of the Greater North have suffered in this conflict. Over 1 million of us have been displaced from our homes, much violence and brutality has occurred, we have not been able to farm our land, grow our crops, we have not been able to educate our children, we have not seen development and progress in the Greater North because of this conflict. There has been widespread violence including sexual violence committed against women predominantly by the LRA, but also by the UPDF and others. Our communities have disintegrated from within due to the pressure of our collective poverty, suffering and lack of justice.

We would like to congratulate you both, for your leadership in guiding your respective delegations during the most recent Peace Talks process. As you know women from the Greater North were very active in this process particularly since the negotiations on Agenda Item 3 on *Accountability and Reconciliation*. As women's rights and peace activists, as mothers, as women who have lost family members in this conflict and who have been harmed ourselves, we participated in the Government Consultations and the Consultations held by the LRA/M in 2007 to put forward our views, demands and desires regarding peace, accountability and reconciliation. We participated in the resumed Peace Talks from January-March 2008. We have encouraged both parties to negotiate, to find a way forward, to stay committed to the ending of the conflict and to accountability.

In April we went to Rik-wang-Ba for the signing of the final Peace Agreement but our hopes were dashed when General Kony did not sign. We have been disappointed many times since then as the final agreement remains unresolved.

We are very concerned by the military offensive against the LRA launched in December 2008 by the Governments of Uganda, DRC and Southern Sudan. We are concerned by the reports of loss of life within the LRA especially of those who were themselves abducted into the militia group. We are in solidarity with the loss of innocent lives in the attacks within the DRC and Southern Sudan since the offensive was launched. We are also in solidarity with all women and communities affected by conflicts especially in the Great Lakes region.

We are not convinced every effort was made during 2008 by the Government, the Mediation Team, the United Nations, the LRA, the donors and the international community to secure a peaceful resolution. Specifically we note the absence of the necessary political will and determination to complete the peace process which we found to be inexplicable given the negotiations were finalized and the resources available for

this process were significant. We also note that the conflict does not seem any closer to ending as a result of the current military action.

Our message to you as women from the Greater North is that we want peace – peace with reconciliation; peace with truth-telling; peace with forgiveness; peace with justice; peace to harmonise and restore our communities.

Mr President and General Kony, as Leaders in this conflict we call upon you both to establish an immediate ceasefire with the following requirements:

1. That the LRA is provided with safe passage to immediately assemble in the designated area in the Rik-wang-Ba National Park as outlined in the Peace Agreements;
2. That the LRA release women and children from their group;
3. That the Government of Uganda work closely with the United Nations and other international agencies in preparation for the return of the women and children from the LRA to ensure their safety, the provision of treatment, assessment and adequate medical and psychological support, and their ultimate return to their communities. The engagement of women, traditional and religious leaders in this process is also vital;
4. That the final peace agreement between the Government of Uganda and the LRA is signed.

This letter is supported by 250 local and national Ugandan NGOs along with organizations from the Democratic Republic of the Congo, Sudan, the Central African Republic and international networks and organizations around the world.

Sincerely
